**Goal: Provide relevant and innovative services, collections, and programs to meet the emergent needs of our community.**

### COLLECTIONS

Marcie completed scheduled weeding in Mysteries, then also weeded due to lack of shelf space at the end of hardcover Mysteries & in the first half of hardcover Fiction.

**January 2021**

**Goal: Explore and implement strategies to improve access to the library and its resources.**

We completed the move to having the online databases hosted by OCLC. We tested all the connection to the online database both inside and outside of library to ensure that all connections were still working correctly.

We purchase a new backup system for the Library that stores our data offsite to ensure we are protected from Ransomware attacks.

The Adult Services staff and IT staff having been viewing presentations on chat software. We currently have a trial of libraryh3lp installed on the web site and the staff are trying it out. We should have one of the software packages selected soon and available to the public to use.

We have created a discord server for the teens to use during our teen programs. The server is used to communicate with the teens during the programs. The teens also share pictures of their projects with the other teens in the program. We also have setup times where the teens can be on the server and socialize. The server is monitored by IT staff at all the times it is available to the public.

**Goal: Provide relevant and innovative services, collections, and programs to meet the emergent needs of our community.**

## Chapter 10 (Programming)

A library can reach out to its entire community through programming. Educational, recreational, informational, and cultural programs sponsored by the library or cosponsored with other community organizations are offered to help attract new users to the library, to welcome people from all cultures and people with disabilities, to increase awareness and use of library resources and services, and to provide a neutral public forum for the debate of issues. Library programs are a particularly effective way of introducing the community to a variety of cultures.

It is well accepted that traditional programming for younger children helps them develop reading habits and encourages them and their caregivers to use the library and its resources. Young adult programs help teens understand some of the intellectual, emotional, and social changes they are experiencing. Programs for adults and senior citizens can provide the lifelong learning skills and recreation needed in our changing society.

If the library opens its meeting rooms, display cases, and other exhibit areas to non-library-sponsored programs and non-library-sponsored exhibits and displays, policies and procedures must cover the use of these facilities. The library's attorney should review this policy as well as other library policies.

### Programming Standards

1. Library programs should strive to be free of charge.
2. Library programs are located in a physically accessible location. Provisions are made, as needed, to enable people with disabilities to participate in the program. The availability of these provisions is noted with other information about the program.
3. The library considers community demographics, special populations, and the availability of programming from other social, cultural, and recreational organizations in the community when planning and evaluating programs.
4. The library presents educational, cultural, and recreational programs that reflect community needs and interests. Community members should be encouraged to offer suggestions.
5. Programming is designed to address the diversity within the community, to increase the awareness and use of library resources and services, and to attract new users.
6. The library provides outreach programs to targeted populations who cannot visit the library.
7. The library's programming seeks to serve groups such as children, parents, young adults, adults, seniors, and special constituents relevant to the area's demographics.
8. The library provides programs that will instruct their community on how to use the library. This will include training sessions or one-on-one instruction on the library's online databases and the library's online catalog. The library will also provide tours and make sure the community is comfortable with using the library.
9. Libraries are encouraged to partner with other organizations to offer programs.

## Chapter 11 (Youth/Young Adult Services)

Service for youth is the provision of all library services to young people ages 0 through 18 in the library and the community. Youth services should meet recreation and education needs with programs, print and digital collections, reader's advisory, reference, outreach, library space and furniture, and library staff.

All Illinois public libraries should provide services to youth.

### Youth/Young Adult Services Standards

1. All basic services are available to all youth regardless of age, ability, gender, or sexual orientation when the library is open. For the purpose of this document, basic services are circulation, reference, reader's advisory, and computer/Internet access. If services are provided to youth and adults from two separate points, then the library provides adequate staffing at both locations at all hours the library is open.
2. The library has competently trained staff with thorough knowledge of the various developmental needs of youth, and offers services including collections and programs to reflect these needs.
3. The library has board-approved policies towards serving youth developed by administration and staff who serve children and/or young adults, which is reviewed every two years.
4. The library actively promotes respect for cultural diversity and creates an inclusive, welcoming, and respectful library atmosphere that embraces diversity.
5. The library strives to provide staff trained in serving youth to meet the needs of patrons who have challenges with disabilities, language, and literacies, including support for use of adaptive equipment and software.
6. The library seeks to eliminate barriers to provision of services and information access to youth and families, including examining content restrictions, library card signup, and Internet policies.
7. The library evaluates its services to youth for popularity, effectiveness, accuracy, timeliness, and patron ease at least once annually.
8. The library provides developmentally-appropriate educational, cultural, recreational, and entertainment programs for youth that reflect community needs and interests. Programming is designed to address the diversity within the community. Community members should be encouraged to offer suggestions.
9. Library programs should strive to be free of charge.
10. Provisions should be made to enable persons with disabilities to participate in programs. The availability of these provisions is noted with other information about the program.
11. The library considers community demographics, special populations, and the availability of resources from social, cultural, and recreational organizations in the community when planning and evaluating library services. Libraries are encouraged to partner with community organizations to offer programs.
12. The library provides services to instruct youth in research and to develop information literacy. This may include tours, training sessions, or one-on-one instruction.

13. The library is aware of the importance of accuracy and currency in reference and reader's advisory service, including knowledge of popular authors, and relies on information sources of demonstrated authority.
14. Youth staff has access to a telephone and a computer to receive and respond to requests for information and materials and to contact other agencies for information, and to accept and respond to reference requests received in all formats, including electronic, print, and phone.
15. Staff responsible for collection management are given access to a variety of reviews and tools for selecting youth materials.
16. The library will include at least one current resource for each nonfiction subject area created and intended for youth. Electronic resources may fulfill this requirement.
17. The library will provide computer access for all ages, and strives to provide guidance on digital literacy and technology use by informed, qualified, and trained staff.
18. The library provides outreach services for youth to increase the awareness and use of library services, to attract new users, and to better reach underserved populations.
19. The library is encouraged to partner with and support all schools, teachers, school libraries, and students of all types in their communities, including private schools and homeschooling families, to provide multifaceted educational opportunities for children. The library should strive for direct partnership and coordination with school librarians in providing these services.
20. Staff members responsible for youth services in their library should attempt to attend as many workshops or continuing education events as possible to stay current.
21. The library provides space allocated for use by children and families. Shelving should be appropriately sized.
22. The library provides services and programming for children and families focused on early literacy skills, including regular storytimes.
23. The library provides programming to facilitate play and fun, and strives to provide toys and other interactive materials for use in the library, during programs, and at home.
24. The library provides a summer reading opportunity to encourage reading and learning during the summer.
25. The library provides a flexible and welcoming environment for young adults both individually and in groups.
26. The library provides developmentally appropriate programming and services for young adults that fosters the development of self-concept, identity, coping mechanisms, and positive interactions with peers and adults, while also encouraging socialization and having fun.
27. The library provides materials produced for a young adult audience that is designated and intended for young adult use.
28. The library fosters young adult leadership and civic engagement.
29. Libraries are encouraged to partner with teens to create and implement teen activities. This can be done with a young adult volunteer group or advisory board.

## Chapter 12 (Technology)

Technology is ubiquitous and permeates most aspects of our lives, environments, and expectations. Libraries are challenged to cope with the integration of technology solutions for all library services as well as to plan for and assess the impact of technology based on users' expectations. Technology, however, is only a tool that is interwoven into all aspects of library services, programs, and operations. The significant keys that serve as the catalyst to unlock technology, the tool, include:

- an informed, qualified, and trained staff whose direct interaction, insight, and instruction in the provision of quality patron services are imperative;
- an adequate budget to maintain and improve all aspects of the library's technological environment and services; and,
- a long-range/strategic technology plan that embraces integration of new technologies into library services, programs, and operations.

The multifaceted roles for technology in the library environment include but are not limited to:

- communications conduit(s): telephone, fax, chat, email, social media;
- providing access to relevant digital content and enabling community members to create their own digital content (workstations, printers, use of software, Internet access, email, makerspaces);
- access to resources within and beyond the local library's resources through the library's website (e-books, audio books, real-time reference);
- expedited and enhanced patron services (automated circulation systems, self-checkout, e-commerce solutions);
- 24/7 library access (via the library's website); and
- improved staff efficiency in both serving patrons and in handling day-to-day routine library functions/operations (remote servers, Cloud, off-site servers).

### Technology Standards

1. Based on local technology planning, the library ensures adequate technological access and maintains appropriate hardware/software that effectively accommodates both library operations and patron needs.
2. The library must have:
  - a telephone, with a listing in the phone book and via Internet search engine;
  - a telephone voice mail and/or answering machine;
  - a fax and/or scanner;
  - a photocopier;
  - effective Internet access, with sufficient capacity to meet the needs of both the staff and the public;
  - library and/or departmental email accounts for patron communication with the library (email must be read and responded to during library hours.)
  - an *Americans with Disabilities Act* (ADA) compliant library website that is updated at least monthly;
  - up-to-date computers with sufficient capacity to meet needs for staff and public access;

- up-to-date printers with sufficient capacity to meet needs for staff and public access;
  - up-to-date anti-virus protection and Internet security software installed on every library computer;
  - up-to-date Internet browsers, web applications, and plug-ins;
  - a valid email address, accessible via the library's website, for the library administrator; and
  - a website that includes basic library information such as hours, location, contact, official name of library, and content required by the *Open Meetings Act*.
3. The library provides a sufficient number of patron-accessible workstations/devices on a per capita basis. The wait time for patron-accessible workstations/devices is minimal and does not exceed 15 to 30 minutes.
  4. The library annually evaluates and, if necessary, updates its Internet connectivity options for service impact and cost-effectiveness. Illinois libraries participate in the Illinois telecommunications network/backbone, i.e., the Illinois Century Network [www.illinois.net] when such participation is economically feasible.
  5. The library provides 24/7 remote access to library services and resources through:
    - a web-accessible library catalog;
    - *Americans with Disabilities Act* (ADA) compliant library website that is updated at least monthly;
    - appropriate regional, state, national, and international bibliographic databases;
    - other authenticated electronic resources that are available for direct patron use; and
    - virtual reference service, instant or text messaging services, and/or library email account.
  6. The library staff must be:
    - computer literate;
    - trained to use and assist patrons in the use of electronic resources and materials; and
    - accessible via phone, email, and/or through messaging services.
  7. The library provides or partners with other community agencies to offer its patrons instruction (workshops, classes) in the use of computers, email, productivity software, and the Internet.
  8. The library provides web links and access to regional and/or statewide initiatives including:
    - regional library system consortial web-based catalogs;
    - the CARLI academic library catalog (I-Share);
    - Illinois State Library-sponsored databases/e-resources;
    - other electronic collections as available; and
    - virtual reference service.
  9. As an equal partner in resource sharing, the library inputs and makes its collection holdings accessible for resource sharing within a regional, statewide, national, and/or international database.
  10. The library has a board-adopted Internet acceptable use policy that is reviewed annually.
  11. The library budgets for ongoing technology needs including but not limited to: hardware and software purchases, upgrades, ongoing maintenance, services, and connectivity.

12. The library maintains, troubleshoots, repairs, and replaces computer hardware and software. This ongoing maintenance is handled by trained library staff and/or via a contractual service agreement with an appropriate service provider.
13. The library develops and updates at regular intervals a long range/strategic plan for its future technology needs based on community needs and priorities. The plan includes the date of implementation, the planned review schedule, and addresses, at a minimum, the areas noted below as required in the School and Libraries Program of the Universal Service Fund [[www.universalservice.org/sl/applicants/step01/default.aspx](http://www.universalservice.org/sl/applicants/step01/default.aspx)]
  - goals and realistic strategy for using telecommunications and information technology;
  - a professional development strategy;
  - an assessment of telecommunications and information technology services, hardware, software, and other services needed;
  - budget resources; and
  - ongoing evaluation process.
14. The library continuously strives to improve its technological services, resources, and access. An ongoing planning cycle includes a needs assessment that examines current and emerging technologies, community feedback about library technology, and service enhancements including but not limited to:
  - wireless access (Wi-Fi);
  - Internet connectivity upgrades sufficient for patron and staff use;
  - networking (local vs. wide area);
  - library Intranet;
  - an *Americans with Disabilities Act* (ADA) compliant library website that is updated at least monthly, highlights library services and programs, includes hyperlinks, and is interactive and mobile compatible;
  - patron self-checkout functionality;
  - new technologies/potential services; for example, social networking, makerspaces, and mobile apps;
  - current and functional meeting room technology;
  - adaptive technologies that accommodate service needs for persons with disabilities and special populations, including but not limited to: accessible computer hardware, deaf interpreters, language translators, open captioning; and
  - ongoing staff continuing education/training related to all aspects of technological services.
15. The library protects the integrity, safety, and security of its technological environment via:
  - anti-virus software and other Internet security software;
  - Firewalls with advanced threat protection;
  - authentication;
  - routine installation of upgrades, patches, etc.;
  - scheduled data backup; and
  - remote/off-site storage of data backups with a plan for redundancy in case of backup failure.

16. The library's automated catalog and its components comply with current state, national, and international standards including, for example, but not limited to:
  - Illinois statewide cataloging standards [<http://www.cyberdriveillinois.com/departments/library/grants/cmc.html>]

## Chapter 13 (Marketing, Promotion, and Collaboration)

A public that is aware of all the services and collections offered by its library and that views its library as a positive, fundamental, and indispensable part of their community is the ideal achieved through an effective public relations and marketing program. In a hyper-connected, on-demand world, libraries must market and promote their services and demonstrate all they offer to the public. The library patron must be the center of every program or service the library provides. The library staff must be aware of the variety of programs and services and learn to promote them to library patrons during reference interviews and the check out process. Of imperative importance, the community must be aware of what the library is providing, and library staff should always make sure their library patrons leave the library satisfied—since it is highly likely that a library user who is not satisfied will not return.

### Marketing, Promotion, and Collaboration Standards

1. The library staff develops, adopts, and reviews a marketing plan at regular intervals that supports the library's long-range and strategic plan.
2. The library staff and trustees participate in two or more cooperative activities with other community organizations, businesses, and institutions, such as Chamber of Commerce and service organizations.
3. The library's services and programs are regularly promoted in the community by using three or more publicity methods such as flyers, newsletters, brochures, library website, social networking, community calendars, posters, banners, displays, billboards, and presentations and speeches.
4. The library should maintain a social media presence on at least one of their community's most used platforms.
5. Information about library programs and services is provided to the community either through a print newsletter or email newsletter at least three times per year.
6. The library specifically invites local, state, and federal officials to visit the library, providing them a firsthand view of the library's services.
7. The library's website is updated at least monthly to reflect current and future programs, board minutes, library policies, and new material.
8. The board, administration, and staff assess the library's appearance at least once a year, using this information to revise the library's image in the community.
9. The board, administration, and appropriate staff visit other libraries at least once a year, or review other libraries' publications and websites to learn what services and programs other libraries offer their patrons.
10. The operating budget includes funds for public relations and marketing.
11. The library considers persons with special needs when developing and delivering information about the library's collections and services.
12. The library develops strategies to reach those groups that do not use the library.
13. One member of the staff coordinates the library's marketing efforts, but all staff receive customer service and marketing training.

14. The library includes public relations and customer service as part of the orientation of all new staff and board members.
15. The library develops a brand identity and all collateral material adheres to the library's brand for the most effective messaging.
16. The library administration ensures all board and staff members receive an orientation of the library covering the library's history, funding sources, long-range/strategic plan, and services.
17. The library builds on public relations and marketing efforts developed by state and national organizations, the state library, and the community.

Over 100,000	60.00	.25	.50	.75	1.00

**Example** BPL has approximately 65 FTE staff. The minimum number of staff for our population is 64.15.

1. The library's jurisdictional population is 8,500.
2. The library wishes to achieve the "growing" level.
3. The library's population places it in the 5,000–9,999 population range. The "base" for this range is 2 FTE.
4. The number of additional FTEs needed to reach the "growing" level is .5 per 1,000 population. Multiply 8.5 (the library's jurisdictional population of 8,500 divided by 1,000) by .5 to get the number of additional FTEs: 4.25.
5. Add this number (4.25 FTE) to the base (2 FTE). To reach the "growing" level, the library will need a staff of 6.25 FTE.

Note: The "base" is not a level. It is a number to be used in the calculation. For the purposes of this document, an FTE works 37.5 hours per week exclusive of any meal breaks of a half hour or more but including all other breaks.

\*The minimum hours a library should be open per week is 15, according to *Illinois Administrative Code* [23 Ill. Adm. Code 3030.110]; these standards recommend 25 in Chapter 4 (Access).
